DEVELOP,MANUFACTURE AND SELL AUTOMOTIVE ALTERNATORS AND STARTERS GLOBALLY

Equipment Capability

The components of each product are strictly inspected to ensure the quality of the products.

New series of products have to undertake all kinds of tests before out into SOP, such as DV performance test, environment test, electromagnetic vibration test, endurance test.

Electromagnetic Vibration Tester (On Working Condition)

Environment Test Area

Starter Endurance Test Zone

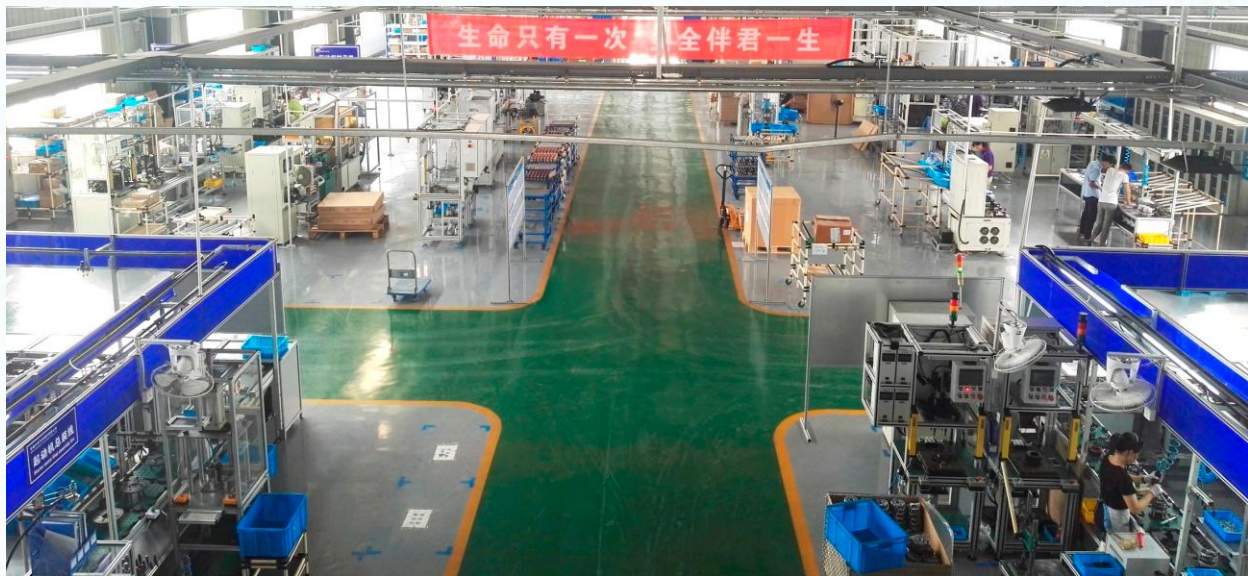

Starter DV Performance Tester

Alternator DV Performance Tester

Workshop & Management Highlights

Workshop

Take the essences of OE management in products development and manufacture,as trailblaze the new management path to aftermarket.

Starter Automatic Final Asm. Line
